Jennifer Witherington, an Atlanta-based stylist and owner of A Party Made Perfect (@apartymadeperfect), knows what it takes to throw a great party. From dreaming up ideas to choosing the right décor and perfecting all of the little details in between, throwing a showstopping soirée can be stressful—and pricey. It was with these things in mind that A Party Made Perfect was born. Offering a wide range of thoughtful party kits for both children and adults, it's a simple, affordable way to have the party of your dreams, delivered right to your doorstep. There's always a reason to celebrate and A Party Made Perfect makes doing so a breeze. This holiday, we're getting inspired by Jennifer's New Year's Eve party kit, complete with disco ball drink cups, confetti rings, and a glittery balloon garland!

## ALL IN THE DETAILS

From playful cocktail napkins and jazzy drink straws to disposable serving pieces that appropriately fit the theme of the event, you'll have everything you need to throw a spirited party. The best part? You don't have to worry about any of the details.

## New Year's Eve *Party Kit Contents*

Bling it on, 2020! This New Year's Eve bash won't soon be forgotten. You get the exquisitely selected, perfect party supplies in pink, black, and gold, because there's no better way to ring in the New Year than with sparkle! Disco ball drink cups and matching dessert picks keep the shine going. Add some of the mini disco balls to the balloon garland to enhance the festive atmosphere. (It makes a perfect backdrop for pictures!) Don't forget to pass out the confetti rings as your guests arrive and pop them at midnight. When it's time to call it a night, send your guests on their way with late night snack-filled treat bags or even little breakfast goodies for the morning.

You can purchase your party kit by going to

# Jennifer's PARTY PLANNING TIPS

---

- Don't wait until the last minute. Buy beverages the week before, assemble balloon garlands a few days in advance, and polish the Champagne flutes well before the party gets started.
- Know when to delegate. Just because you can scour the Internet for the perfect paper straws doesn't mean you should. Let someone do the shopping for you. With a few clicks of a button, you can have a party in a box delivered straight to your door.
- Don't stock a full bar. Serve beer, wine or Champagne, and a specialty cocktail you can make in advance. My favorite New Year's Eve drink is a simple Champagne punch finished off with a rock candy swizzle stick.
- Be consistent. Whether it's a color scheme or a general theme, stick to it. Disco balls and flamingoes are both great party additions, but they're not the best combo.
- Don't forget about yourself. The day of the party, get yourself ready before putting the finishing touches on your event. Your guests won't notice a missing garnish, but they will notice how frazzled you are if you haven't taken some time for yourself.
